

FIGHTING FOR HIGHER EDUCATION

Share your story

As classified workers at Oregon's Public Universities, we are the foundation of higher education. We unite in support of our Union's bargaining priorities:

- **Economics:** Fair wages that keep up with the cost of living
- **Benefit Protections:** Affordable health insurance and strong PERS contributions
- **Workload:** Sustainable workloads, remote work equity, and employment protections
- **Union Power:** Mandatory New employee orientations, union communication access to new hires, and strong layoff language

We, the undersigned, are passionate about the mission of higher education and dedicated to maintaining an environment where students can thrive and succeed. Therefore, we urge our university administration to acknowledge the concerns raised by our elected bargaining team and to reach a fair contract that truly values our contributions.
